Passport/LT® Minimum Hardware Specifications

Passport-4000 Minimum Hardware and Software Specifications

Minimum Hardware

- Intel® Pentium® Processor (1)
- 2 GB RAM
- 80 GB HD (2)
- CD-ROM, 3.5" Floppy
- 100 Mbps NIC
- Available USB port
- Brooktrout Fax Board (3)
- Digi AccelePort RAS Card for Remote Printing (4)
- Remote Access Method for product support

Operating System Software

- Microsoft® Windows 2003 Server SP2

Additional Software

- Microsoft® SQL Server 2005 or 2005 Express
- Microsoft® SQL Server Management Studio or Express
- Microsoft IIS 6.0
- Microsoft .NET Framework version 2.0 and 3.0
- Management Console 3.0 (MMC 3.0)

Notes:

- (1) Intel® Xeon® Processor preferred with Server class Operating systems
- (2) Hard disk size does not include space for long term document storage, to calculate needed disk space use estimate of 35kb per page.
- (3) Full size uPCI slot required for each Brooktrout TR1034 or TruFax card. User Supplied Chassis: Brooktrout TruFax and TR1034 PCI Express [PCI-E] cards may be substituted for the standard Universal PCI [PCI-X] versions; Chassis must support PCI-E expansion slots based on card configuration and Brooktrout specifications, see <http://www.dialogic.com>.
- (4) Full size uPCI slot required for Digi AccelePort RAS Card, see <http://www.digi.com>
